

Caring for Climate Scorecard

Caring for Climate	What We Have Done
<p>Take practical actions now to increase the efficiency of energy usage and to reduce the carbon burden of our products, services and processes, to set voluntary targets for doing so, and to report publicly on the achievement of those targets annually in our COP</p>	<ul style="list-style-type: none"> • Constructed 3 of 15 planned on-site CHP plants • Co-developed refrigeration that is up to 66% more energy efficient than 2004 • Green IT and Safe&Eco-Driving programme saved 5,000 tonnes of CO2 • Reduced plant energy use by 4.2% in 2009, and improved energy efficiency by 31% since 2002 • Target to cut plant emissions by 20% by 2020. Close to stabilising direct emissions
<p>Build significant capacity to understand fully the implications of climate change for our business and to develop a coherent business strategy for minimising risks and identifying opportunities.</p>	<ul style="list-style-type: none"> • Annual carbon footprint calculated since 2003 • Strategy guided by world-renowned climate expert, member of Stakeholder Panel • Describe risks and opportunities in submission to Carbon Disclosure Project • Water stewardship is our main mitigation strategy
<p>Engage fully and positively with national governments, inter-governmental organizations and civil society organisations to develop policies and measures that will provide an enabling framework for the business sector to contribute effectively to building a low carbon economy.</p>	<ul style="list-style-type: none"> • Named by European Commission as Official Partner, Sustainable Energy Europe Campaign • Participated actively at COP15 in Copenhagen • Previously signed Copenhagen and Bali Communiqués
<p>Work collaboratively with other enterprises nationally and sectorally, and along our value-chains, by setting standards and taking joint initiatives aimed at reducing climate risks, assisting with adaptation to climate change and enhancing climate-related opportunities.</p>	<ul style="list-style-type: none"> • Work with suppliers to develop HFC-free and energy efficient refrigeration • Work with customers to improve energy efficiency of refrigeration • Work with the broader Coca-Cola business system • Joined EcoDrivingUSA Worldwide • Country-level partnerships and programmes
<p>Become an active business champion for rapid and extensive response to climate change with our peers, employees, customers, investors and the broader public.</p>	<ul style="list-style-type: none"> • At COP15, Copenhagen showcased our CHP units and new refrigeration • Sponsored Responding to Climate Change (RTC) 2009 magazine at COP15 • Contributed to Global Compact International Yearbook 2009 • Presented Green IT at 2009 Central and Eastern Europe IT Leaders Summit • Educate employees on energy saving • Country-level partnerships and programmes
